Authorization for this examiner's amendment was given in a telephone interview with Frank Cona on 04/20/2005.

Examiner notes that Daniel Daisak is the attorney of record; however, Mr. Daisak explained through an Interview on 04/19/2005 that the case was recently transferred to Mr. Cona within Tyco which is evident from Miscellaneous Letters on the record sent by Mr. Cona.

Allowable Subject Matter

2. The following is a statement of reasons for the indication of allowable subject matter: Applicant's invention has been found to be novel because prior art fails to show a signal representing zero-crossings, retrieving a dwell time based on said period, generating a second signal based on the first signal and said dwell time and then creating a magnetic field based on said second signal to deactivate an electronic article surveillance marker.

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Belka (US 6696951) discloses field creation in a magnetic electronic article surveillance system. Maitin (US 6181249) discloses a coil driving circuit for EAS marker deactivation device. Kopp (US 6084514) discloses an apparatus for deactivation of electronic article surveillance tags. Zarembo (US 6002335) discloses a small magnet resensitizer apparatus for use with article surveillance systems.
